Food Trucks on Campus

For the last couple months Dining Services has been partnering with various food trucks to add some new flavor to campus! We have had La Vie En Rose serving decadent savory crepes, Food Freaks that serves unique and delicious grass fed burgers, My Girls who serves the classic southern dishes and even Kona Ice to give a nice cool and sweet treat of your favorite flavor! The best part is that they all accept Food Dollars! Be on the lookout for more food trucks to come!

Sustainable Offerings: Fresh Food Company

At the Fresh Food Company we have been serving sustainable meat options that are featured on our Southern Kitchen Line and Grill! We have brought in Harris Robinette grass fed beef, humane pork from Smithfield, VA, farm raised catfish and will be bringing in more to come! Lookout for our sustainable offering posters!

Meet the Farmer Wednesday

In the Fresh Food Company we now have "Meet the Farmer Wednesday". This is a day where we have a local vendor come and talk about their products that we are offering! We last had Microgreen King come talk about their product! They grow Micro-greens hydroponically in the Yadkin Valley. Micro-green King has a small carbon footprint and uses only Non-GMO seeds and no chemicals or pesticides. A seed, water and light is all that is used to grow their Micro-greens full of nutrition and packed full of flavor!

Zick's Changes: Phase Two Complete

Zick's phase two has officially been complete! We have presented a large variety of new menu items including multiple new appetizers like Pie Squared (ravioli bites) and 6 new individual flatbreads like the Thai-Tanic and the Ken and Barbie-Q! The menu items are being well received by our customer so much in fact, that a group of students serenaded the staff last week! If you want great food that is a great value, stop by Zick's! Stay tuned for phase 3!

Employee Appreciation Day

On April 19th, we will take the time to celebrate and honor our employees for their dedication, engagement and contributions to Wake Forest and the community. Thanks to our employees for making our everyday operations possible and for working year-round to enrich and nourish the lives we touch!
